

1 June 1966

MEMORANDUM FOR ALL OPERATING OFFICIALS

1. In the course of a floor debate on 16 May 1966, various senators made statements about the CIA which I thought would be of interest to you and your key people. The various favorable remarks made about the Agency's organization, its performance, and the quality of its personnel are heartening, particularly in view of the fact that they were made by senators on opposing sides of the debate. The subject of the debate, as you will recall, is the proposition that several members of the Senate Foreign Relations Committee join with the membership of the select subcommittees of the Senate Armed Services and Appropriations Committees in keeping abreast of the work done by the Agency.

2. The proposition itself, of course, is a matter for the Senate to decide and the Agency takes no position.
